

Message from KPPCSD Board President Deppe regarding the Kensington paths and the December agenda

At our last board meeting Director Sherris-Watt and I said we would report back at the December meeting with more information on the paths. Unfortunately, some critical information requested from the County has not yet been delivered to us, and so the paths will not be on the December agenda. Hopefully the information will arrive before the January meeting, but no matter what we will have an agenda item on the January meeting regarding the paths. I thank everyone for their patience.
